(c) Credits allowed on deliveries. Subject to the provisions of paragraph (d) hereof, any set aside veal delivered to a governmental agency, authorized purchaser, contract school, marine hospital, maritime academy, or ship supplier may be credited against the requirements of paragraph (b) hereof for veal of the type

The Assistant Administrator may, by general order or written notice to individual slaughterers, order the allocation of yeal set aside under this order to or among specific governmental agencies, authorized purchasers, contract schools, marine hospitals, maritime academies, or ship suppliers. In the absence of such allocation, slaughterers may, subject to paragraph (d) hereof, sell yeal so set aside to any such person or agencies.

Chapter XI—Office of Price Administration

PART 1381—SOFTWOOD LUMBER [2d Rev. MPR 19,1 Amdt. 12]

SOUTHERN PINE LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 6 of Second Revised Maximum Price Regulation 19 is amended to read as follows.

Sec. 6. Distributors' direct-mill sales—
(a) Definitions—(1) Direct-mill distributor. A direct-mill distributor is a person making either a wholesale-type or commission-type direct-mill sale of Southern pine lumber and who has been registered and assigned a registration number as required under paragraph (b) of this section.

(2) Wholesale-type sale. A wholesale-type sale is a sale in which the seller buys lumber from a mill or concentration yard or wholesaler and takes title to and delivers the lumber to the buyer in substantially the same form.

(3) Commission-type sale. A commission-type sale is a sale through a commission-man. For purposes of this section, a commission-man is a person who customarily represents, and customarily sells lumber in carload quantities for, two or more mills or concentration yards, receives his compensation in the form of commission based on the amount of the lumber sold, and is independent of both buyer and seller.

(b) Registration. All direct-mill distributors without registration numbers must register with the Lumber Branch of the Office of Price Administration, Washington 25, D. C. and receive a registration number before charging or receiving the additions provided in paragraph\_(c) of this section. This registration number must be shown on all invoices covering distributors' direct-mill sales carrying the direct-mill distributors' additions. Distribution yards subject to Second Revised Maximum Price Regulation 215 do not have to be registered to charge the wholesaler's mark-up.

(c) Prices—(1) Wholesale-type sales. On wholesale-type direct-mill sales of Southern pine lumber by a registered direct-mill distributor, there may be added to the regular f. o. b. mill prices established in this regulation 6 percent (but not more than \$3.00 per M'BM). The distributor's addition must be evened out to the nearest quarter-dollar per M'BM or in the case of plastering or fence lath to the nearest 5 cents per 1,000 pieces. For example, if the maximum price for a particular item is \$30.00 the ceiling price for a wholesale-type sale is \$31.75. This mark-up applies only to carload quantities if shipped by rail, or to quantities of 5 M'BM or more if shipped by truck or water.

(2) Commission-type sales. On commission-type direct-mill sales of South-ern pine lumber made through a registered direct-mill distributor the ceiling

<sup>&</sup>lt;sup>1</sup>9 F.R. 11486, 12843; 10 F.R. 458, 1146, 3467, 8936, 9084, 10023, 11858.

price is 4 percent (but not more than \$2.00 per M'BM) higher than the regular f. o. b. mill prices established in this regulation. The distributor's commission must be evened out to the nearest quarter-dollar per M'BM or in the case of plastering or fence lath to the nearest 5 cents per 1,000 pieces. The mill must allow the direct-mill distributor a commission at least equal to the excess over the standard f. o. b. mill price. For example, if the maximum price for a particular item is \$30.00, the mill ceiling on a commission-type sale made through a directmill distributor is \$31.25 and the mill must allow the distributor at least \$1.25. This mark-up applies only to carload quantities if shipped by rail, or to quantities of 5 M'BM or more if shipped by truck or water.

(3) Mill's price or realization. This Section 6 increases maximum prices only on sales by direct-mill distributors. The mill's price, or realization after deducting the 4 percent commission, may never be higher than the regular prices established in this regulation. The mill, of course, may sell at a price at which it will realize less than its regular ceiling.

(4) Pyramiding prohibited. The price additions permitted in this Section 6 may not be made more than once to the regular f. o. b. mill price, regardless of the number of persons participating in the transaction. For example: If directmill distributor making a "commissiontype" sale sells a car of \$30.00 lumber to a yard which, in turn, sells to a consumer for direct-mill shipment, the mill's ceiling price on the sale through the distributor is \$31.25 (4 per cent addition) and the yard's ceiling price to the consumer is \$31.75 (6 per cent addition). Note that the yard cannot add its 6 per cent either to the \$31.25 on a purchase through a direct-mill distributor making a commission-type sale or to \$31.75 if the purchase was from a direct-mill distributor making a "wholesale type" sale. In both cases, the 6 per cent may be added only to the regular f. o. b. mill price of \$30.00.

Moreover, none of the additions in this section may be applied above the addition for direct-mill retail sales in Section 7 below.

(5) Exceptions. No commission or addition, as provided in this section, may be charged, paid or collected in connection with any sale of lumber manufactured or concentrated by a mill or concentration yard controlled by the distributor, controlling the distributor or under common control with the distributor. If any direct-mill distributor adds a mark-up on a sale of lumber produced or concentrated by a mill or concentration yard having control relationship with any other direct-mill distributor, the latter distributor may not thereafter charge any mark-up, commission or addition provided in paragraphs (1) or (2) regardless of where the lumber originates.

"Control" as used in this section includes all circumstances of common ownership or beneficial interest, profit or loss sharing arrangements, or control based on close family relationships.

(d) Any person who between February 16 and August 15, 1945, was given permission to qualify as a "new distribu-

3. The new law continues the present criterion of "light perception" for blindness of one eye under §§ 35.011 (b) (11) and 35.012 (b) (11), but provides specific rates for three grades of blindness (a) with 5/200 visual acuity or less (§§ 35.011 (b) (12) to (15) and 35.012 (b) (12) to (15)); (b) requiring regular aid and attendance (§§ 35.011 (b) (13) and 35.012 (b) (13)); and (c) anatomical loss (§§ 35.011 (b) (14) and 35.012 (b) (14)). In connection with (a) above, concentric contraction of the field of vision beyond 10° in both eyes will be considered the equivalent of 5/200 visual acuity.

4. Previously the additional allowances of \$35.00 or \$26.25 monthly for anatomical loss or loss of use of one hand or of one foot or for blindness of one eye, having only light perception, under §§ 35.011 (b) (11) and 35.012 (b) (11) were payable only in addition to the pension provided in §§ 35.011 (b) (1) to (10) and 35.012 (b) (1) to (10). It will be observed that under Public No. 182, 79th Congress, the additional allowances under §§ 35.011 (b) (11) and 35.012 (b) (11) are now payable in addition to pension payable under §§ 35.011 (b) (12) to (14) and 35.012 (b) (12) to (14) and that such additional allowance is payable for each loss or loss of use when existing in addition to the requirements for these rates, provided the total does not exceed \$300.00 in § 35.011 (b) cases or \$225.00 in § 35.012 (b) cases. For example, a war veteran who has suffered the loss of use of both hands, one foot, and one eye (light perception only) will be compensated or pensioned at \$200.00 plus two allowances of \$35.00 each or \$270.00 under the second part of § 35.011 (b) (11) and 35.012 (b) (11). It will be further observed that provision is not made for the application more than once of the special monthly pension under §§ 35.011 (b) (11) and 35.012 (b) (11), except in cases meeting the requirements of §§ 35.011 (b) (12) to (14) and 35.012 (b) (12) to (14).

5. The maximum rate, as a result of including helplessness as one of the entitling multiple disabilities, is intended to cover, in addition to obvious losses and blindness, conditions such as transverse myelitis with loss of use of both legs and loss of anal and bladder sphincter control; also the loss of use of two extremities with absolute deafness and nearly total blindness, or with severe multiple injuries producing total disability outside the useless extremities, these conditions being construed as loss of use of two extremities and helplessness.

6. The authority contained in §§ 35.011 (b) (16) and 35.012 (b) (16) to allow the next higher rate or an intermediate rate will be administered as follows:

(a) With the anatomical loss, or loss of use, of one hand or one foot, and anatomical loss, or loss of use, of another extremity at a level or with complications preventing natural elbow or knee action with prosthesis in place, the rate will be \$217.50 (or \$163.13).

(b) With the anatomical loss, or loss of use, of one extremity at a level or with complications preventing natural elbow or knee action with prosthesis in place, and the anatomical loss of another extremity so near the shoulder or hip as to prevent the use of a prosthetic appliance, the rate will be \$250.00 (or \$187.50).

(c) With the anatomical loss, or loss of use, of one hand or one foot, and the anatomical loss of another extremity so near the shoulder or hip as to prevent the use of a prosthetic appliance, the rate

will be \$235.00 (or \$176.25).

(d) With the requirements for any of the rates provided in §§ 35.011 (b) (12) to (14) and 35.012 (b) (12) to (14), inclusive, and additional disability independently ratable at 50% or more, the rate will be intermediate, i. e., half-way, between the rate authorized for the subparagraph whose requirements are met, and the next higher rate authorized in §§ 35.011 (b) (13) to (15) and 35.012 (b) (13) to (15).

(e) With the requirements for any of the rates provided in §§ 35.011 (b) (12) to (14) and 35.012 (b) (12) to (14), inclusive, and additional disability independently ratable, apart from any consideration of individual unemployability, at 100%, the rate will be the next higher rate authorized in §§ 35.011 (b) (13) to (15) and 35.012 (b) (13) to (15).

(f) Other cases in which any of the rates are deemed inadequate will be referred to the central office, citing § 2.1142.

7. The effective date of increases accomplished pursuant to the review-authorized herein, will be October 1, 1945. In the adjudication of claims filed on or after October 1, 1945, the rates of pension specified in Public No. 182, 79th Congress, are applicable, but not over any period prior to that date. Such increased rates include the 15 percent increase in the rate of compensation or pension payable for service-incurred disability under section 1, Public No. 312, 78th Congress, or Public-No. 469, 78th Congress. On the Form 553 series will be entered a notation specifying Public No. 182, 79th Congress, and this Instruction as authority for the

award. The rating sheets will cite entitlement under the appropriate subparagraphs of §§ 35.011 (b) and 35.012 (b), as amended by Public No. 182, 79th Congress.

8. The veteran, his representative, if any, or guardian will be notified of the award action taken under Public No. 182, 79th Congress, setting forth the reasons therefor. (Public No. 182, 79th Congress.)

PACIFIC GAS AND ELECTRIC CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of October A. D. 1945.

Pacific Gas and Electric Company having filed an application pursuant to section 2 (a) (8) of the Public Utility Holding Company Act of 1935 for an order declaring it not to be a subsidiary of The North American Company, a registered holding company;
The Commission having by order

dated September 10, 1941, denied said

application, the Commission finding that the facts in the record, including, among others, the ownership by The North American Company of 17.71% of the voting stock of Pacific Gas and Electric Company, the furnishing of periodic reports by Pacific Gas and Elec-tric Company to The North American Company and the presence on the board of directors of the Pacific Gas and Electric Company of two represntatives of The North American Company, did not demonstrate that Pacific Gas and Electric Company was entitled to the requested exemption:

The Commission having by order dated April 14, 1942, directed The North American Company to dispose of its ownership, control and holding of securities of the Pacific Gas and Electric

Company; Pacific Gas and Electric Company having filed an application renewing its application for an order under section 2 (a) (8) declaring it not to be a subsidiary of The North American Company and having stated in such application that The North American Company has recently disposed of a large amount of its stock in Pacific Gas and Electric Company, with the result that it now owns of record and beneficially only 5.24% of such stock, including 56,900 shares owned by The North American Utilities Securities Corporation, a subsidiary of The North American Company, that one of the two representatives of The North American Company on the board of directors of Pacific Gas and Electric Company has submitted his resignation, that Pacific Gas and Electric Company understands that the other such representative will resign when The North American Company disposes of the remainder of its stock in Pacific Gas and Electric Company, that Pacific Gas and Electric Company will in the future furnish to such representative on its board, if requested by him, such reports and other information as are available to other members of its board, and that Pacific Gas and Electric Company will furnish to The North American Company such financial re-ports with respect to Pacific Gas and Electric Company, in addition to reports furnished generally to stockholders, as The North American Company is required to supply to financial institutions under its existing loan agreements or renewals thereof.

It appearing to the Commission that the circumstances which gave rise to the Commission's order of September 10, 1941, denying the said application of Pacific Gas and Electric Company have changed materially and that it is appropriate, in the light of the facts contained in the application of Pacific Gas and Electric Company renewing its application for an order under section 2 (a) (8), that said order of September 10, 1941, be revoked and that an order be entered granting said application of Pacific Gas and Electric Company:

It is ordered, That (a) said order of September 10, 1941, insofar as it denied Pacific Gas and Electric Company's application for an order declaring it not to be a subsidiary of The North American

Company, be, and the same is hereby, revoked, and (b) said renewed application of Pacific Gas and Electric Company for an order declaring that it is not a subsidiary of The North American Company be, and the same is hereby, granted.

FLORIDA POWER CORP. ET AL.

ORDER PERMITTING DECLARATIONS TO DECOME EFFECTIVE AND AMENDING PRIOR ORDER

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 11th day of October 1945.

In the matter of Florida Power Corporation, General Gas & Electric Corporation, File No. 70–1161; Florida Power Corporation, File No. 70–235.

General Gas & Electric Corporation ("Gengas"), a registered holding company and a subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), also a registered holding company, and Florida Power Corporation ("Florida"), a subsidiary of Gengas, having filed declarations, as amended, pursuant to sections 6 (a), 7, and 12 of the Public Utility Holding Company Act of 1935, with respect to transactions which may be summarized as follows:

The Plan of Divestment of Assets, Simplification of Corporate Structure and Equitable Distribution of Voting Power ("Plan") of Gengas which was approved by orders of the Commission dated July 25, 1945 and August 23, 1945 (Holding Company Act Release Nos. 5950 and 6001) and which is now pending before the United States District Court for the Southern District of New York for enforcement, provides, among other things, that (1) the presently outstanding 3,000,-000 shares of no par value common stock of Florida be reclassified into 1,000,000 shares of \$7.50 par value common stock, and (2) 460,759.2 shares of such reclassified shares of Florida common stock be distributed to the public holders of Gengas common stocks, Class A and B, and 396,383.8 shares of such stock be distributed to or upon the order of the Agecorp Trustees, leaving a balance of 142,857 shares of such reclassified common stock to be issued and sold by Florida for financing.

Gengas, pursuant to the direction of the Agecorp Trustees, proposes to sell at competitive bidding the 396,383.8 shares of Florida common stock, \$7.50 par value, distributable to the Agecorp Trustees under the Plan, and Florida proposes to sell the 142,857 remaining shares of its reclassified common stock. The proceeds to be received by Florida from the sale of its remaining reclassified common stock will be used to repay temporary bank loans outstanding in the amount of \$500,000, to raise additional capital for construction purposes, and other corporate purposes. The proceeds to be received by Gengas will be distributed to the Trustees of Agecorp in lieu of common stock of Florida distributable to them under the terms of the Gengas

As part of the proposed transaction Gengas will make available to its public stockholders to whom, under the terms of the Gengas Plan 460,759.2 shares of Florida's reclassified common stock will be distributed, the opportunity to subscribe to 76,793 shares of the additional reclassified common stock on the basis of one share of Florida common stock for every thirty shares of Gengas common stock Class A and B, at the price to be paid to Florida by the underwriters. No fractional shares of additional reclassified common stock will be issued.

By its order dated July 25, 1945, the Commission pursuant to section 11 (b) of the act ordered the Agecorp Trustees to divest themselves of all direct and indirect interest in and control over any and all properties and businesses of Florida and its subsidiary, Georgia Power and Light Company. In this connection Gengas has requested that the order of this Commission permitting said declarations to become effective contain the recitals and other provisions necessary to meet the requirements of Supplement R of the Internal Revenue Code as amended.

Florida has also applied to the Commission for the removal of a dividend restriction imposed by order of the Commission dated April 10, 1941, in the Matter of Florida Power Corporation, File No. 70-235 (9 S.E.C. 29 (1941); Holding Company Act Release No. 2691) whereby payment of dividends on common stock in any calendar year beginning January 1, 1941 is and has been restricted to such earnings as may be in excess of the sum of annual preferred stock dividend requirements plus \$300,000. In lieu of such restriction, Florida proposes to amend its Certificate of Reincorporation, to provide for a partial restriction on the payment of dividends on its common stock, so long as any shares of its preferred stock of any series are outstanding, if its common stock equity should become less than 25% of total capitalization and surplus.

A public hearing having been held after appropriate notice, and the Commission having considered the record in this matter, and having made and filed its findings and opinion herein:

It is ordered. Pursuant to the applicable provisions of said act that the aforesaid declarations, as amended, be and hereby are, permitted to become effective forthwith, subject to the terms and conditions provided in Rule U-24 and to the further condition that the proposed issuance and sale of securities shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in this proceeding and a further order shall have been entered by the Commission in the light of the record so completed, which order may contain further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for this purpose.

It is further ordered, That jurisdiction be, and hereby is, reserved over the payment of all legal fees and expenses of all counsel in connection with the proposed transactions.

It is further ordered, That the order of the Commission dated April 10, 1941 (File No. 70-235) whereby payment of dividends by Florida on common stock in any calendar year beginning January 1, 1941 is and has been restricted to such earnings as may be in excess of the sum of annual preferred stock dividend requirements plus \$300,000, be and hereby is amended by eliminating such dividend restriction from said order.

It is further ordered and recited, That the following transactions authorized

and permitted by this order are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935: The transfer, sale and delivery for cash by Gengas at competitive bidding of 396,383.8 shares of the reclassified common stock, \$7.50 par value, of Florida Power Corporation.

By the Commission.

[Region II Order G-56 Under RMPR 122] SOLID FUELS IN ERIE COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

- (a) What this order does—(1) Dealers' maximum prices; area covered. If you are a dealer in solid fuels, this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business. this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") "By-Product Coke", "Disco", and for "Ambricoal Briquettes" delivered to or at any point in Erie County, Pennsylvania, except By-Product Coke and Ambricoal Briquettes in the borough and township of North East; and for certain sizes, quantities, and types of bituminous coal delivered in that part of Erie County, Pennsylvania, described in Schedule II, paragraph (e).
- (2) Schedules of prices, charges and discounts. The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for anthracite, by-product coke, disco, and ambricoal briquettes, within Erie County, except by-product coke and ambricoal briquettes in the borough and township of North East, are set forth in Schedule I hereafter, and for bituminous coal, in Schedule II.
- (3) To what sales this order applies. If you are a dealer in anthracite, by-product coke, disco, or ambricoal briquettes, you are bound by the prices, charges, and discounts, and by all other provisions of this order for all deliveries within Erie County except by-product coke and ambricoal briquettes in the borough and township of North East,

whether or not you are located in that county. If you are a dealer in bituminous coal, you are similarly bound for all deliveries within the area described in Schedule II, whether or not you are located in that area.

(b) What this order prohibits. Regardless of any contract or other obligations, you shall not:

(1) Sell, or, in the course of trade or business, buy solid fuels of the kinds, sizes, and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) How to compute maximum prices. You must figure your maximum prices as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to "direct-delivery" sales and "yard sales" of anthracite, by-product coke, disco, and ambricoal briquettes within Erie County except by-product coke and ambricoal briquettes in the borough and township of North East. You will find Schedule I in paragraph (d). In like manner, Schedule II applies to "direct-delivery" sales and "yard sales" of bituminous coal within the designated portions of Erie County. You will find Schedule II in paragraph (e))

(2) Take the dollars-and-cents figure given in the applicable table of the applicable schedule, for the kind, size, and quantity of solid fuel you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(d) Schedule I. Schedule I establishes a specific maximum price for certain kinds, sizes, and quanties of anthracite, by-product coke, disco, and ambricoal briquettes, delivered to or at any

Required discounts. You shall deduct from the prices set forth in table (2) of this schedule on sales and deliveries of all sizes except screenings, in quantities of one ton or more, a discount of 50¢ per net ton where payment is made within thirty days after delivery. Nothing herein requires that you sell on other than a cash basis.

(3) Addition by dealers of charges for oil or chemical treatment of bituminous coal. Notwithstanding other provisions of this order, if you are a dealer charged a price for oil or chemical treatment of bituminous coal from Districts 2, 7, and 8, you may, on sales of such treated coal, add to the maximum prices set by this order the treatment charge made by your supplier: Provided, That it does not exceed 10¢ per net ton. This treatment charge may be added only if the treated coal is kept separate and is not mixed with other untreated coal. You need not

separately state the amount of this treatment charge if you clearly indicate on the invoice that the coal is so treated. Provisions of this paragraph shall not apply to sales of solid fuels in less than ¼ ton lots, unless requested by the purchaser.

(f) Commingling. If one size or kind of solid fuel is sold commingled with another size or kind of solid fuel, the maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes or for the least expensive kind of fuel so commingled, whichever is lower, whether the sale be a "delivered sale" or "yard sale", except in the following situation: Where a purchaser requests that two or more sizes or kinds of fuel be commingled in one delivery, then, and in that event, if these sizes and kinds are separately weighed at the point of loading, the dealer may commingle these sizes and kinds in the truck or other vehicle, in which the delivery is made. The price for fuel so commingled shall be calculated on the basis of the applicable per net ton price for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(g) Ex parte 148; freight rate increase. Since the ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(h) Addition of increase in supplier's maximum prices prohibited. You may not increase the specific maximum prices established by this order to reflect in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) Taxes. If you are a dealer subject to this order you may collect, in addition \* to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by Section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the Commonwealth of Pennsylvania or any political subdivision thereof, you need not state this tax separately.

(j) Adjustable pricing. You may not make a price adjustable to a maximum

price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) Petitions for amendment. Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(1) Right of amendment or revocation. The Regional Administrator of the Price Administrator may amend, revoke, or rescind this order, or any pro-

vision thereof, at any time.

(m) Applicability of other regulations. If you are a dealer subject to this order. you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) Records. If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of solid fuel hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the

charge made for it.

(o) Posting of maximum prices: sales slips and receipts. (1) If you are a dealer subject to this order, you shall post all of your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser an invoice, sales slip or receipt showing your name and address, the kind, size, and quantity of solid fuel sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser.

(p) Enforcement. (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, pro-

vided for by the Emergency Price Control Act of 1942, as amended.

- (2) Persons who have any evidence of any violation of this order are urged to communicate with the Pittsburgh District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.
